

Advanced Econometrics – 1st stage of the project

Author's name Jakub Habib	Student's book no. 483800
Author's name Truong Giang Do	Student's book no. 488388

Econometric model:	Limited Dependent Variables (Tobit)
Project's title: Analyzing the features of tracks that define their commercial popularity.	
Why is it worth to analyse the topic? Explain why the topic is an economic problem.	
Record labels and streaming platforms rely on data analytics to allocate massive marketing budgets. Understanding which specific acoustic features drive consumer demand allows for optimizing the song as a "product" for a target audience.	

Data set
